Introduction

This model constitutes the refereed lawsuits of the 10th IFIP WG 11.2 International Conference on Information Security Theory and Practices, WISTP 2016, held in Heraklion, Crete, Greece, in September 2016. The 13 revised full papers and five collant papers provided collectively on this book have been cautiously reviewed and selected from 29 submissions.

WISTP 2016 sought indéfinissable submissions from academia and enterprise providing novel research on all theoretical and realistic aspects of safety and privacy, as well as experimental research of fielded systems, the habitude of security era, the implementation of structures, and classes found out. The papers are organized in topical sections on authentication and key conduite; comfy hardware structures; attacks to programme and community structures; and get admission to manage and information capote.
